---

**Course Description and Objectives**

This course is aimed to

- Describes the basic concepts, regulations, methods, and models of the business evaluation;
- Investigate how to create and apply corporate evaluation model in the important financial issues;
- Study the impact of business strategies and management practices on the enterprise value;
- Discuss cases of domestic and foreign enterprises to validate the theoretical framework.

Upon completion of this course, students are expected to, at least, have ability on inspecting the company's strategy and operations, proposing projects to enhance the enterprise value; and then meeting the requirements of the professional business evaluator.

**Textbooks**

**Handout Book:**

A bound collection of handouts will be distributed as a book. This Handout Book is available at the school's photocopy shop, and also on the course website. This reading will be assigned throughout the semester and used as textbook.

**Grading Policy**

The grade will be determined based on the following policy:

<b>Midterm Case Report</b>	<b>35%</b>
<b>2 Cases Study Participation and Report</b>	<b>10%</b>
<b>Final Project Presentation</b>	<b>10%</b>
<b>Final Project Report</b>	<b>30%</b>
<b><u>Class Attendance:</u></b>	<b>15%</b>
<b>Total</b>	<b>100%</b>

★ **Midterm Case Report** Policy: [35%]

- There will be an assigned take-home case **on week 11**. Students should collect information, evaluate the company, and submit a concise report (no more than 10 pages) by individual. The case report should be emailed to me **within two weeks** after the case announced.

★ **2 Cases Participation (8%) and Report (2%)** Policy [10%]

- We will have 2 cases discussing in this semester. You have obligation to join all the case discussions and present your analysis to the class.
- Participation will be marked **by 4-6 peer evaluators** who have been chosen for that day's class. The grade will be an average of the scores those evaluators given to you (highest/lowest scores removed) based on the quality and quantity of your comments.
- In addition, you need to choose one case and submit the outline (3-10 pages) of your analysis right after the class we discuss about your chosen case.

★ **Final Project Presentation** Policy [10%]

- At the end of the semester, each group will be required to give a presentation briefly summarizing the work done on the final project.
- Presentation will be marked **by instructor** based on your familiarity for the group's project.
- The presentation should be around **30-40 minutes** long. You must assemble a PowerPoint to guide your presentation.

★ **Final Project Report** Policy: [30%]

- The project report will be used to demonstrate your overall understanding of the subject. You are free to form a group and evaluate a target firm.
- Group should be constructed **no more than 4 (<=4)** students (depending on the number of students in class). Every member in group will basically receive the same grade on the work from the instructor. However, to avoid free riders, the **peer evaluation** results will be seriously considered for grades adjustment.
- Group members should be set before week 4.
- The target firm will be provided by the instructor and decided by drawing lots on week 5.
- The length of the report should be between **20 and 30 single-spaced** pages with a **font size of 12 pt**, excluding exhibits and tables. Use the **standard margin** of Word, that is: 1 inch (2.54cm) for 'Top' and 'Bottom' and 1.25 inches (3.17cm) for 'Left' and 'Right'. **Page number** is also required. I will evaluate your report based on its quality. Although I do not require a strict structure, I do expect to see good writing skills.
- The final project report is due on week 18 via email/E-course. This is the absolute latest date and time for handing in the report. Late submissions will be penalized. If you have a good reason for missing this deadline (e.g., illness), you will need to obtain my permission before this date.
- Any other rules unclear will be further discussed in the following classes.

- The project report is suggested to include the following sections:

1. 應聲明事項
2. 評價各項資料說明
3. 標的公司說明
4. 產業概況分析
5. 財務分析
6. 價值計算
7. 價值調整及判定
8. 結論

☆ Class Attendance Policy (15%)

- Roll call will be taken irregularly. Any student who misses class more than three times without acceptable explanation, he/she will receive a grade of zero for this measurement.

**Course Schedule**

週數	日期	課程	Topic
1	2/23	企業評價概論 / 評價報告撰寫	1
2	3/2	產業與策略分析	2
