課程概述 Course Descriptions	<p>This course is designed to help students improve their English communication skills, with a focus on listening and speaking as practical skills that can be strengthened through systematic practice. Through regular structured practice and interactive classroom activities, students will build their listening comprehension and develop the confidence and the skills needed to express ideas clearly in English. The ultimate goal is to help students think directly in English—without relying on translation—and achieve automaticity in real-time communication.</p> <p>In the first year, the course focuses on improving pronunciation and intelligibility, building confidence in speaking, and developing basic conversation and presentation skills. Students will also learn key strategies for active listening and acquire essential vocabulary and grammar structures to express themselves in everyday and academic situations. The goal is to help students build a strong foundation for effective oral communication in both classroom and real-world contexts.</p> <p>Please make sure to arrive on time during the first week of the semester for enrollment confirmation and course announcements.</p> <p>開學第一週請務必準時出席。</p>

相關訊息 Additional Information	<p>Attendance and participation: Your consistent participation in class sessions is the most critical component of a successful course. You are expected to come to each class prepared and ready to participate in class activities. <u>Each student is allowed two absences without penalty. Any additional absences, whether excused or unexcused, will lower your final grade by 5 points.</u> Repeated tardiness disrupts class discussion and will negatively affect your participation grade.</p> <p>Assignments and listening tests: Throughout the semester, you will complete several assignments designed to strengthen your communication skills. These assignments and other course content will be integrated into listening-based tests.</p> <p>Speaking tasks: For each module, you will complete a speaking task related to the course topic. In-class activities and short assignments throughout the module will help you build the necessary skills and prepare for the task.</p> <p>Classroom etiquette: The foundation of our learning environment is built on respect. It's crucial that you familiarize yourself with basic classroom etiquette and take responsibility for your actions as a college student. Your adherence to these guidelines will contribute to a positive and respectful classroom atmosphere for all of us.</p> <p>Academic integrity: Academic integrity is a cornerstone of educational and scholarly activity. Cheating and plagiarism, which involves using someone else's ideas, words, or work without proper acknowledgment, will be treated as a severe offense and penalized.</p>

The weekly schedule will be updated as the semester approaches.
